## VAST SYSTEM OF INTERBURBAN LINES PLANNED BY SOUTHERN PACIFIC RAILROAD COMPANY

Asks Permission Under Name of Peninsular Railway Company to Construct and Operate in Oakland

## APPLICATION FOR FRANCHISE ON FRANKLIN STREET IS WITHDRAWN

Gigantic Transportation Project, With the Headquarters in This City, Is Being Quietly Carried Out

Abandoning its efforts to secure a franchise for the extension of its double-track railway lines northward along Franklin street to Twenty-second street, which met with much opposition, the Southern Pacific Company took the protestants completely by surprise at the meeting of the City Council last night when, under the corporate name of the Peninsular Railway Company, it applied for permission to construct and operate an electric railroad within the corporate limits of the municipality.

### Vast Interurban System Is Planned

Behind this franchise there looms up the vision of a vast system of interurban electric railways girdling the southern loop of San Francisco bay with Oakland as the center of operation, the area of the fertile Santa Clara valley as its apex and San Francisco as its spur. That the vision is not illusory is evinced by the fact that the Southern Pacific has been secretly working for the early consummation of the gigantic transportation project for several years and is now ready to execute it with a view to its earliest possible realization.

### To Convert Steam Lines Into Electric Roads

The move just made by the Peninsular Company is regarded as in harmony with the Southern Pacific's announced intention to convert all of its steam passenger lines on this side of the bay into electrically operated lines, including the lines leading southward and eastward to Niles with San Jose within easy access. Taken in connection with the work that the Southern Pacific has already accomplished in the Santa Clara valley and along the peninsula, the franchise asked for last night has the greatest significance.

Actual execution of the scheme began last June when the Southern Pacific filed with the Secretary of State an application for incorporation of the Peninsular Railway Company. The company is authorized to construct and operate electric lines between San Francisco and Oakland, and to convert all of its steam passenger lines on this side of the bay into electrically operated lines.

The application for a franchise on Franklin street was filed with the City Council last night. The application was for a franchise to construct and operate an electric railroad within the corporate limits of the municipality.

## HUNDREDS ARE HOMELESS AS RESULT OF STORM

Hurricane at Key West Has Spent Its Fury After \$2,000,000 Damage

LOSS OF LIFE HEAVY IN EASTERN SECTION

At Havana Twelve or More Were Killed When Homes Tumbled in Gale

KEY WEST, Fla., Oct. 12.—Half of the city is virtually in ruins, 500 homes have been destroyed and more than 100 ships wrecked as a result of the hurricane which swept this city yesterday afternoon. Seven churches and nine of the largest cigar factories in the south were destroyed.

KEY WEST, Oct. 12.—With the city in the hands of the military authorities, who were called on by the Mayor for assistance, efforts are being concentrated today toward ascertaining the damage wrought by the hurricane which swept the Gulf yesterday.

It is estimated that the damage to property in the city and harbor will reach \$2,000,000. No loss of life has been reported in the city, but it is believed that the death toll was heavy along the eastern coast of the peninsula.

Many of the vessels which had been swept from their moorings yesterday morning to ride out the storm during the night and came back to their piers today, but between 50 and 70 boats of various descriptions were wrecked.

FEAR LOSS OF LIFE

It is feared a number of lives were lost in this vessel.

In the city center, a block of structures were razed to the ground, and considerable damage was done to the city.

Thousands of people are homeless, and many of the city's schools and other structures have been damaged.

HUNDREDS HOMELESS

The Key West Guards were called out and patrolled the streets during the night. The United States Government also was called upon for assistance.

## Did Minister Crane Act With President's Approval?

MONROVIA, Cal., October 12.—When President Taft was shown the Associated Press dispatch from Washington that Secretary of State Knox had requested the resignation of Minister Crane, he positively declined to discuss the subject in any way. He said that he was not sufficiently in touch with matters which had transpired since he left the capital to say anything on the subject.

CHARLES R. CRANE, Minister to China, Whose Resignation Was Demanded Today by Secretary of State Knox.

## HAS NO RIGHT TO REVEAL COUNTRY'S SECRETS

Matter Will Now Come Up to President Taft for Decision

OFFICIAL STATEMENT ISSUED TO PUBLIC

Sensational Developments Are Expected to Follow His Withdrawal

WASHINGTON, Oct. 12.—Secretary of State Knox informed Chas. R. Crane, minister-designate to China, today that he would accept his resignation. Mr. Crane already advised the secretary that he was prepared to resign if the recent developments had made his further service in that position embarrassing to the department. Mr. Knox has advised President Taft of his action.

Should Mr. Crane decide to accede to the secretary's suggestion, which it is taken for granted he will do promptly, his resignation, in the nature of the case, will be addressed, not to the State Department, but to the President, who appointed him. It was said at the State Department that Mr. Knox would return this afternoon to his home at Valley Forge.

Mr. Crane, when seen at his hotel, said that he had received a formal letter from Secretary Knox requesting him to tender his resignation as minister to China.

Mr. Crane after receiving Secretary Knox's letter calling for his resignation, was shown a copy of Mr. Knox's statement and read it carefully. Returning the paper to the reporter who had brought it, he remarked that the matter was too serious to be discussed off-hand but promised an interview later in the day.

KNOX'S STATEMENT

In announcing his action, Mr. Knox gave out the following statement, saying that he would have nothing to add to it.

The Department of State has been engaged for some time in making the usual study of the agreements between China and Japan in relation to Manchuria, with a view to determining whether there was anything in the agreements adversely affecting American interests, or in conflict with the principle of equal opportunities to which the powers are pledged. A study not yet concluded and in respect to which no decision has been reached.

While this investigation was proceeding, Mr. Crane, the minister to China, came to the department, and while there was informed by one of the clerks that such an examination was being made.

Without consultation with the acting secretary or any other responsible officer of the department, and without the knowledge or authority of anyone connected with the department, Mr. Crane gave out a newspaper story to the effect that this government was preparing to protest against some features of the agreements and that the promulgation of the protest would have the effect of an official withdrawal from the agreement.

The story appeared in a Western paper, and at the same time, a day later, in the Japanese press, and subsequently was generally published. Such were the representations made to me October 1 by the responsible officers of the Department of State, accompanied by their statement that they had sufficient reason to believe the story to be true. Whereupon I sent Mr. Crane at San Francisco the following telegram, dated October 1: "You have been charged with the responsibility for the withdrawal from the agreement. It is the duty of the United States to prepare to protect its interests against the Chinese-Japanese agreement."

SAN FRANCISCO, Oct. 12. — The cruiser Noord-Brabant, which will represent The Netherlands during the Portola festival, arrived today from the Dutch East Indies. She was boarded by the Portola committee, headed by Mayor E. Taylor, and welcomed to this city. The other fighting craft anchored in the bay joined with the forts in saluting the warship.

The Noord-Brabant, a cruiser of 3965 tons displacement, is a sister ship of the Dutchman, which attended the Hudson river celebration and of the Gelderland, which carried President Kruger on South Africa to Holland. She carries a complement of 230 men.

**MRS. E. DE LA FRACHELLE DIES IN THE HOSPITAL**

Mrs. Eloise de la Frachelle died at the Providence Hospital Sunday night, after an illness of four months. The deceased was a native of France, coming to this country nineteen years ago. She leaves one daughter, Miss Florence de la Frachelle. The funeral will be held tomorrow morning at 9:30 from St. Mary's Church, Eighth and Jefferson streets, where a requiem high mass will be sung for the repose of her soul. During her mother's illness the daughter has been in constant attendance, doing everything possible to alleviate her sufferings. Mrs. de la Frachelle leaves many friends on both sides of the bay to mourn her loss. The interment will take place at St. Mary's cemetery.

**DE LANCEY TRIAL SET FOR MONDAY**

**Continuation Granted This Morning at the Request of Accused Man's Counsel**

Attorney John S. De Lancey will not be brought to trial in the criminal department of the Superior Court tomorrow morning on the Grand Jury indictment which charges him with the felonious embezzlement of \$10,000 from the estate of the late George Hite Cook. Attorneys M. C. Chapman and A. L. Frick, counsel for De Lancey, arranged this forenoon with District Attorney Donahue for a postponement of the hearing until next Monday morning, basing their request upon reasons which the latter considered sufficient to warrant him in agreeing to the postponement.

**REPORT IS DENIED.**

With reference to the reports that De Lancey intends to make restitution in the matter of the shortages in the Cook estate, THE TRIBUNE was authoritatively informed this morning that De Lancey has never contemplated making restitution. However, he has been negotiating for several days past with former Public Administrator Gray for a settlement of the financial differences between them and when a basis is agreed upon, it is said, De Lancey will settle any indebtedness that he owes. In this connection the following statement had been given out in the indicted lawyer's behalf:

"De Lancey has plenty of money available to settle anything he owes to George Gray as former Public Administrator. He has been negotiating with Gray to this end for some time and as soon as the differences existing are adjusted he will meet every obligation willingly and promptly with the cash."

**OTT MEDAL TROPHY FOR STAR TARGET MEN**

A. L. Ott has presented Chief of Police Wilson with an elegant medal in gold and enamel and a jewelry establishment at 1038 O'Farrell street, San Francisco.

The gift of the medal was timely, as the gold and silver medals that have long done service in the department exhibit grave signs of nearing the end of their usefulness. Wilson is himself a crack shot and is endeavoring to stimulate marksmanship in the department. The Ott medal is a beautiful ornament and will doubtless cause rivalry among the crack shots to wear it.

**BOILING DOUGHNUTS START A BIG BLAZE**

The upsetting of a doughnut kettle of boiling fat in the Star Bakery at Thirty-fourth and Potrero streets, at 2:40 o'clock this morning, precipitated a conflagration that threatened the neighborhood. As it was, the bakery was burned out, a vacant house next door was left with nothing but the badly damaged walls standing and a shed, on the bakery lot, is a pile of kindling. A fire that was started in the shed was cremated altogether a damage of \$2500 being inflicted.

The proprietor, fearing the engine companies in action would not be able to handle the fire was responsible for the second alarm that was turned in from his fifteen.

**MURDER POSSIBLE IS POLICE THEORY**

**Mystery Not Altogether Solved in Death of Young Frederick**

SAN FRANCISCO, Oct. 12.—Despite the fact that the police have arrived at the opinion that John Frederick of Raton, N. M., who was found with his throat cut at Fifth and Polson streets last night, committed suicide, they admit that he might have been murdered and that the absence of the knife from the scene of the tragedy lends color to that theory.

About twenty feet from where Frederick's body was discovered there is a large splash of blood on the pavement, and blood splattered on the fence at the side. A cane which the man had evidently used to walk to the spot where he fell unconscious was also covered with blood, but no knife or razor could be found anywhere.

**FIREMEN OF HAYWARD TO GIVE GRAND BALL**

HAYWARD, Oct. 12.—The seventh annual masquerade ball to be given by the firemen of Hayward will be held Thanksgiving evening in Nativity Sons Hall. The event is expected to surpass all others. Accommodations are being made for a large attendance. No effort will be spared in making the ball a social as well as a financial success.

The committee selected to manage the ball are as follows:

Arrangement—George Grindell, chairman; Arthur Neudeck, William Allen, Arthur Munter and William Clark. Addressing—M. E. Rice, R. K. Rice, M. Welch, and William Zarebsky. Finance—J. Good, John Lawrence and Joseph Corcoran. Floor—Neudeck, M. Welch, Alfred L. Cunha, Pete Grindell, Tony Cabral and A. August. Reception—George Luce, J. A. Dale, George Metelinger, Edward Dale and Elmer Patterson.

**WAITED ON THE DOCK WITH MARRIAGE LICENSE**

NEW YORK, Oct. 12.—When the steamship Rotterdam arrived at this port, Florence Huebner of Seattle was met at the gang plank by Mr. Hampton Dukes of Fort Wayne, Ind., and Mr. Duke telephoned to the marriage license bureau to hold the office open until they arrived. They started to the office in a taxicab, received the license and then went to the Little Church Around the Corner. Subsequently Mr. Dukes said that while in Seattle five years ago he fell in love with Miss Huebner, but had to wait until now to marry her, so that she could complete her musical education abroad.

**BAIL MONEY MUST GO TO THE CITY TREASURER**

Councilman Stetwater at a meeting of the City Council last night introduced an ordinance providing that all bail money for prisoners appearing in the police court should be deposited in the city treasury instead of in local banks as is now the case. The ordinance is designed to assist persons who have been arrested and discharged in getting their bail money promptly.

The bailiff and the clerk of the court must alter the checks for bail money under the new ordinance and the measure was referred to the Ordinance and Judiciary Committee.

**ST. LOUISE CHURCH FAIR CLOSES IN ELMHURST**

ELMHURST, Oct. 12.—The fair held under the auspices of the Catholic Church of St. Louise closed last evening with a dance given in the unfinished church at East Fourth street and 17th avenue. About \$3000 was raised as the result of the indoor function, which was given for the benefit of the building fund of the church and the parish house, which will cost about \$30,000 when completed. The fair was opened to the public a week ago and was well attended since the first night. The people of Elmhurst and the outlying district have given their generous aid to the cause.

**BRIDGE IS READY FOR PORTOLA AUTO RACES**

SAN LEANDRO, Oct. 12.—The bridge on the boulevard over San Leandro creek, costing \$35,000, will be ready for automobiles to pass on October 22, when the Oakland Portola auto road races will be held. The bridge has been widened for the races and the streets of San Leandro macadamized for the event.

**Berkeley Personals**

BERKELEY, Oct. 12.—The wedding of Miss Margaret Bruce Brown, daughter of Mrs. Cornelia Kirby Brown, and Hugh Buckingham Chalmers will take place at St. Mark's Episcopal Church in Berkeley this evening. The Rev. Edward L. Parsons will perform the ceremony.

Mr. and Mrs. W. C. Miller Jr. of this city and their son were at Del Monte for the week end.

Mrs. W. R. Francis left yesterday for Davis, California.

Mrs. Ellen G. Girard, formerly a resident of this city, having made her home at 1811 Milvia street, died at the residence of her son in Caldwell, Idaho, September 30, last.

G. W. Wright of this city was in Contra Costa Saturday on court house business.

There are lots of sensible women in the world, but as a matter of fact they don't seem to make a hit with the average man.

**MRS. E. H. HARRIMAN RICHEST WOMAN**

**Dead Magnate's Estate Said to Have Been Three Hundred Million**

NEW YORK, Oct. 12.—Mrs. Mary Harriman, the widow of Edward H. Harriman, is the wealthiest woman in the world. The estate left by the railroad magnate is valued at \$300,000,000, according to a statement by a close friend and business associate. Although out of this Harriman, the day before he died, gave each of his children \$6,000,000, and other relatives \$3,000,000, the remainder, \$267,000,000, which goes to the widow, places her in possession of a fortune beside which the wealth of Mrs. Hettie Green and Mrs. Russell Sage seem small. With the exception of Rockefeller, Rothschild, the Duke of Westminster and perhaps one of the Gould fortunes, Mrs. Harriman's wealth is greater than that of any other person.

**DIVIDES HIS RICHES.**

A friend of E. H. Harriman, who made the statement concerning the railroad king's riches, said that Harriman himself said a day or two before his death that he would leave \$300,000,000. "Mr. Harriman called his wife and children to him and told them of the vast estate he would leave," said this friend of the financier, "and he told them he would leave most of it to his wife. This meant all but \$25,000,000, which he intended to divide among his children, a few other relatives and old servants."

**BONDS TO CHILDREN.**

"To each of his five children he gave \$5,000,000 in bonds and other securities. This apportionment was only 10 per cent of his fortune, and other gifts to members of his immediate family, servants, old retainers and clerks who had stuck faithfully to him through his fight for control of the vast railroad interests now known as the Harriman lines, aggregated \$3,000,000."

**PENINSULAR LINE TO RUN BY JANUARY 1**

PALO ALTO, Oct. 12.—General Manager F. E. Chapin of the Peninsular railway company has announced that the electric line between Palo Alto and San Jose would be in operation by January 1. His statement was as follows:

"It is impossible to say that the line will be in operation at this or that date, for the reason that we can not be certain of receiving material promptly and can not foresee what hindrances may arise. All of the material has been ordered, however, and it is probable that the cars will be running by the first of next year."

"It is necessary to electrify the line from Mayfield to Monte Vista and to completely construct it between Mayfield and Palo Alto. It is the latter part of this work on which we are engaged at present. Good progress has been made, and there is no reason to believe that the construction can not be carried right through to completion."

In spite of his alleged wealth, Plumbum says he has lived on bread and water for two weeks.

**REPORTS CONSIDERED BY TEMPERANCE UNION**

PACIFIC GROVE, Oct. 12.—Yesterday's session of the State convention of the Woman's Christian Temperance Union was given over to the reports of the superintendents of departments. Mrs. E. Sturtevant Peet of Oakland reported that the executive department has experienced a banner year. Among the things reported with commendation by this department were the near-ber and anti-cigarette ordinances of Berkeley, the enforcement of the prohibition rule on the Stanford campus, and the use of grape juice in most of the churches. Reports were made on the oratorical tour conducted by the Union and the gifts pledged for the conduct of its work during the coming year.

**Instantaneous Hot Water Any Minute Day or Night,— Saves Two-Thirds of Your Gas**

**HOUSEHOLDERS**, the long-sought solution to the quick-hot-water question has been found. Think of having an unlimited supply of hot, steaming water at any time you want it, day or night, at less than one-third what it costs you now to run your unsatisfactory kitchen-boiler. The Humphrey Instantaneous Bath Heater is a marvel of convenience, a wonder as a time-saver, a level of luxury, and a perfect beauty.

With one of these heaters in your bathroom, all you have to do when you want hot water for the tub or the wash-bowl, or for any other purpose, is to turn on the cold water, light a match, and in 7 seconds, about as quick as it takes you to walk five steps, the water pours out steaming, piped hot from the heater—yes, all the hot water you want, oceans of it, as long as you want it to run, day or night.

**Kitchen Boilers Out - Of - Date**

But the Humphrey heater does not store water, it heats water instantaneously.

The boiler in your kitchen stores water, and when you want to heat water in the boiler, you always have to heat more water than you use and wait quite a while before it gets sufficiently hot. This means an expensive waste of gas, loss of time and much inconvenience, and the water you get is usually lukewarm, flat and stale.

Its supply of water is always limited, its water is never hot when most needed, it requires more gas than ought to be necessary, it never supplies water for more than one bath at a time, and it takes an age to heat more water for another bath for somebody else.

The "Humphrey Instantaneous" gives you the cheapest hot water in the world. Figure it out. An average family of five uses 60 gallons of hot water every day. If gas costs \$1.00 for 1000 cubic feet, it costs you \$60 a day to heat these 60 gallons a day with your range-boiler heater. To keep this water hot, just remember that—20 cents a day.

The "Humphrey Instantaneous" will heat these 60 gallons at one-tenth of a cent a gallon, which would be 6 cents a day, as against 20 cents in your kitchen-boiler.

Your expense runs only as long as the hot water pours out of the faucet.

You save 14 cents a day, and besides, you have one of the greatest conveniences and luxuries ever devised for the household. It makes hot water on earth.

The "Humphrey Instantaneous" is also indispensable in rented apartments, schools, offices, and barber shops, etc., where an unlimited supply of hot water must be ready constantly.

The "Humphrey Instantaneous" never gets out of order, you never have plumbing repairs to pay for. These heaters are most beautifully and most accurately made, of steel, cast iron and copper, nickel-plated, and indestructible. Each is fitted with safety-valve-pilot, which prevents the gas from being turned on to the burners without first opening the pilot.

**Within Reach Of Any Householder**

It is impossible to open the gas until the water is turned on. Children cannot do damage by fooling with it.

The Humphrey Instantaneous will give you more comfort and real enjoyment than any other convenience you ever had in your household.

Its cost is inconceivable; it quickly pays for itself. Perfect for summer as well as winter. It heats only the water, not the room.

Let us send you a beautiful book of illustrations and full explanation of the wonderful Humphrey Instantaneous Bath Heaters; it is free. Send your name and address today to The Humphrey Co., Dept. H, Katonah, N. Y.

For those who prefer a large heater, sufficient for supplying a whole house with hot water instantly, at any minute of the day or night, for the kitchen, laundry, rooms and bathrooms, all at once, we manufacture a still more remarkable device, the Automatic Thermostatic Heater. It is automatic, it heats your water as you need it, it is almost human. We have a separate booklet on these "Automatic" heaters, ask for this one, too, if you are interested. It is free.

## A Sample of Heney Purity.

In public speeches Charles M. Fickert charges that when he was named by the Business Men's Republican League for District Attorney emmissaries from the camp of Rudolph Spreckels and James D. Phelan asked him to sign a contract agreeing to keep Francis J. Heney in his office as Assistant District Attorney. We have seen no authoritative denial of the charge.

Such a contract as Mr. Fickert alleges he was asked to sign is specifically prohibited by law. It is ground for the removal from office of any candidate entering into it. Had Mr. Fickert signed the promise to reappoint Heney he would have been at the mercy of that individual's owners, who would have had no scruple about invoking it to deprive him of his office (in the event of his election) did he fail to render implicit obedience to the ring which has controlled the District Attorney's office for the last three years.

Had Mr. Fickert weakly signed the unlawful agreement presented to him Heney would not have been a candidate against him. His refusal to sign it brought out Heney in opposition and arrayed all the Spreckels-Phelan forces against him—a proof that the chief issue in the municipal campaign across the bay is the determination of Rudolph Spreckels and James D. Phelan to retain control of the District Attorney's office at all hazards. Fickert was perfectly satisfactory to the Spreckels-Phelan combine till he refused to enter into an unlawful compact with them and thus become their tool and slave.

Yet it is brazenly asserted that Heney is a candidate in the interest of political purity and justice in the administration of the law. The illegal contract Fickert was asked to sign shows how little respect Heney has for the law or political decency.

## Rich Gold Deposits Uncovered.

The uncovering of a body of exceptionally high grade gold quartz in one of the older mines in Mariposa county is one of the substantial proofs, of which several have been given this year, that the wealth of the auriferous quartz veins in California is practically inexhaustible. The ore body opened in the drifts of the Mexican mine, on Big Grizzly Creek, is represented as running \$30,000 per ton. If so, it is richer rock than that which was uncovered during the summer in the Sixteen-to-One and other mines located in a group in the Allegheny district, Sierra county, or that which was tapped recently in the lower levels of the Delhi mine situated on the south side of the canyon of the Middle Yuba, in Nevada county.

What is the extent of the Mexican mine ore body remains to be revealed by later exploration. In all of the productive gold mines of the State, ultra-rich ore deposits lying in the pay shoots have usually been limited in area and their occurrence in the veins comparatively rare; but they prove invariably large enough to give a tremendous boost to the industry as well as to greatly enrich the mine owners. Except in rare instances, they have usually developed in sections of the gold-bearing veins carrying large bodies of ore of moderately rich grade which have yielded a good profit from the grass roots to the lower levels of the mine workings. In such mines as the North Star and the Empire in the Grass Valley field these high grade pay shoots have been followed down the inclined plane of the veins for a depth of between 3000 and 4000 feet, and at the lower levels the ore shows a disposition to increase in richness with increased depth. This demonstrates practically the inexhaustibility of the gold-bearing veins of the State, and the uncovering of occasional kidneys of exceptionally rich ore running into the tens of thousands of dollars to the ton, like that developed a few days ago in the Mariposa county mine, prove conclusively the sources which enriched the placer deposits worked in pioneer times in the beds of the streams coursing through the auriferous belt on the western flank of the Sierra.

Dr. James B. Angell, who has been president of the University of Michigan for twenty-eight years, has resigned, and there is naturally great interest in educational circles as to who will be his successor. It is understood that Professor Charles Mills Gayley, head of the literary department of the University of California, is being considered. There was some talk a few months ago about President Benjamin Ide Wheeler being called to Ann Arbor, but as Dr. Wheeler's salary has been raised and his position at Berkeley otherwise made more lucrative and important, it is not likely that he will abandon the presidency of the University of California to begin anew at Ann Arbor, although the University of Michigan ranks as the greatest of all the State universities and has an enormous student body. Professor Gayley is very popular both with the student body and the people of Berkeley, and sincere regret would follow him should he be called to a higher position in the East; but he would also carry with him the good wishes of a host of friends. However, it is a compliment to California, that the governing body of a great Eastern university should be looking to Berkeley to find a fitting successor to so eminent a scholar as Dr. Angell.

William R. Hearst is again twisting the tail of the Tammany tiger. More power to his elbow.

There may be a shortage in some branches of production, but the crop of holidays shows no signs of diminishing—not in California.

## Oakland's Portola Day.

Portola week is close at hand. The festivities begin Tuesday next, October 19, and close the following Saturday night. The first of the foreign warships to participate in the naval features of the festival arrived in the bay yesterday—namely, the Japanese armored cruiser Idzumo, a vessel which distinguished herself in many of the naval battles fought in Oriental waters during the Russo-Japanese war.

Oakland's special interest in Portola week is centered chiefly in the long-distance races to be conducted over the scenic boulevard and the county roads course under the auspices of the Automobile Club of California on Oakland Day, Saturday, October 23. Cash prizes aggregating \$5500 and cups valued at \$3500 will be distributed among the winners. These are said to be the largest prizes ever offered for automobile road races.

The finance committee, of which M. J. Layman is chairman, has pledged itself to raise the money to cover the expense associated with Oakland's day in the festival week. It needs \$20,000 for the purpose and relies upon the civic spirit of Oakland's citizens to raise the fund. The Realty Syndicate has made the handsome donation of \$5000 to the fund on behalf of itself and the Oakland Traction and Key Route companies. The syndicate is certainly entitled to great credit for its generous contribution. Its example ought to stimulate the pride of every Oaklander to contribute freely to the fund.

It is reasonably assumed that at least 300,000 persons will come to Oakland on Oakland Day to witness the three great automobile events which will be contested over the course, and to witness the automobile parade which will take place on the evening of Friday, October 22, through the public streets of the city, followed by a magnificent display of fireworks, as a prelude to the main events of the following day.

The committee in charge of the automobile races have arranged with the transportation companies to provide every facility for the distribution of the crowd of spectators along the line of the course, and for the erection of a grand stand for the accommodation of spectators desiring the comfort of seating.

Moreover, the Automobile Club of California has arranged with the Southern Pacific Company to take over the Creek Route and Oakland pier ferryboats from 6 p. m. Friday evening until 6 a. m. Sunday morning, October 24, for the use of all automobiles to and from San Francisco, and extra boats will be operated on the Creek Route to handle the rush of automobiles before and after the races.

Oakland Day thus promises to become one of the most attractive features of the Portola festival.

Oregon is said to be claiming an inheritance tax of \$500,000 from the estate of E. H. Harriman. Whether Harriman had any other personal property in Oregon except his Klamath Lake properties has not been made known. If the deceased railroad magnate owned no other properties in Oregon than Pelican Lodge and Odessa, lying on the west side of Great Klamath Lake and approximately not much exceeding in area one thousand acres, the Oregon authorities must have tremendously inflated ideas of property values in their State. All of the land in and around the picturesque hunting lodge and estate at Pelican bay is wild forest land or uncultivated meadow which cost Harriman less than \$40,000. Not many months prior to his death he bought the townsite of Odessa and all of the land lying around it and extending to the Pelican lodge property and did not probably pay much more for it than he did for Pelican lodge and the 530 acres or so which went with it. So that the total cost of these properties did not, in all likelihood, amount to more than one-fifth the inheritance tax the State of Oregon is seeking to collect.

Possibly the most surprising "labor strike" in modern times will be that which the doctors attached to the Viennese hospitals have decided to inaugurate December 15 unless the city grants their demand for an increased salary. Private members of the profession are said to support the action taken. If the strike is carried out the interesting query will arise: How will it be possible for the strikers to respect the Hippocratic oath, which requires prompt response to the call of those in physical distress, whether they receive compensation for their services or not? It is to be presumed that every one of the Viennese hospital doctors has subscribed to the oath.

Among the reforms which the French Premier, Briand, who assumed the reins of government following Clemenceau's sudden political downfall, proposes to introduce is a bill to facilitate and promote profit-sharing by skilled workers employed in the trades. Strange to say, it is at present impossible for the French workman to participate in the profits derived from the fruits of his labor.

THE TRIBUNE is authoritatively informed that the Oakland Health Office is the only one in Northern California that does not charge a fee for a certificate of registration of a birth or death. All other health offices in the section of the State described charge a fee of fifty cents. What is the Southern California health offices' practice "deponent sayeth not."

## Object Lesson In Matter of Naval Rank

Now that the spectacular side of the celebration has to a large degree been satisfied, it may not be intrusive to direct attention to the official position in which the commanders-in-chief of our fleets are invariably placed by an extraordinary neglect of Congress. At the moment the State and municipality are honored by the presence of five foreign flag officers. We have with us a British admiral of the fleet, a grand admiral of Germany, which title is but another expression of similar rank; a vice admiral of Italy and a British and a French rear admiral.

In all the associations engendered by the meetings of these distinguished seamen—and these, let us hope, may serve to correct other mournful and discouraging mishaps of the hour—the American senior naval officer has been in the naval hierarchy, junior to at least three of the attending flag officers. The American force, obviously enough, is by far the largest, indeed so large and of such a character that its command would in no other service be entrusted to a rear admiral.

The reason for this in our case is not difficult to discover. We have no officer of any higher naval rank, except, of course, the title so well earned by Admiral Dewey, which dies with him.

In every quarter of the globe today and for years past our flag officers have been juniors on all occasions of ceremony.

With a livelier appreciation of the demands of naval comity, the other sea powers, even the least of them, have on the same stations officers of a rank always superior to our own. This means much in the calculations of other countries, notably of those that we are prone to label semi-civilized. Is it not time to quit this foolishness and have the dignity and aspirations of the nation adequately manifested in every official gathering by the chosen representatives of our sea power?—New York Herald.

## FAIRER TO RAILROADS

A striking illustration of the effects of anti-railroad agitation upon railroad enterprise and the subsequent beneficial effect of the lessening of the pressure put upon railroads by legislatures and other governmental bodies is found in the conduct of the Atchison, Topeka and Santa Fe over the last two or three years. The system was spending very large amounts in the development of the territory which it serves, but at the height of the agitation against the railroads suspended practically all of this work. This year, even before the full tide of prosperity had returned, the feeling of hostility against the railroads in Texas having subsided, the directors of the road decided to go ahead with very important new work in that State.

The incident is regarded in railroad circles as a striking object lesson. Here is what President E. P. Ripley of the Atchison had to say on the matter in his statement to the road's shareholders contained in the annual report made public last week:

"In the last report it was indicated that while public opinion seemed to be changing, and there was reason to hope that the harassing of railroads had reached its climax, your directors did not deem it wise to proceed to further development of the territory tributary to your lines until the reaction should become more apparent. The State most in need of development was Texas, and with but one exception its laws and the administration thereof have been the most severe and unjust; but in the last two years there has been a marked change in sentiment, evidenced by the fact that the last session of the Texas legislature resisted practically all efforts to commit the State to further radical legislation."—New York Times.

## Peru's New Railway Lines

The long-awaited railroad connecting the west coast of South America with the Amazon seems at last to be almost in sight. The Peruvian government has granted a provisional concession to a German firm, and surveys will soon begin. The Amazon, it will be remembered, nearly cuts the South American continent in two. Navigation is possible clear up to Iquitos, at the eastern foot of the Andean slope, only about 450 miles from the Pacific. There has never been either railroad or wagon road from there westward. As a result, Peruvian products destined for Iquitos are generally taken all the way round to Liverpool, reshipped to Para, and there reshipped again. Peruvian rubber is carried down the Amazon and shipped as Para rubber instead of going out by way of the west coast. The new railroad will bring Iquitos within ten days of the Pacific coast instead of the six months often consumed now in shipping goods from a Peruvian port to the Amazon headwaters. In short, this little strip of railroad, only about 400 miles long, will mean to Peru and the upper Amazon country very much what the first transcontinental line meant to our own Western States. The plan is to build the road in from the port of Talita and over a pass at an altitude of 7000 feet. This is extremely low for the Andes—the Orera railroad, a little farther south in Peru, climbing 15,000 feet in order to cross the range. The cost will be about \$15,000,000.—Cottier's Weekly.

## Topics Timely and Interesting

The story brought by Dr. Stout and his engineers from Brazil that quinine is often served there as the last course of a dinner has been pronounced "a dream" by a member of the Brazilian colony of New York. But medicine at dinner, he said, is not unknown here. "I often dine with a newly wed couple, and whenever the young wife serves a dish prepared by herself a tablet, containing a drug which is supposed to aid digestion is served with it. Of course, it is all done in fun, but we are always glad to help the little joke along by taking the tablet."

"The Chicago Daily News" says that on a Montana railroad the conductor and brakeman differ as to the proper pronunciation of the name Eureka. Passengers are often started upon arrival at this station to hear the conductor yell: "You're a liar! You're a liar!" And

## Dr. Angell on Keeping Young

Dr. James B. Angell in reply to congratulations on the completion of his long term as president of the University of Michigan telegraphs the World: "The lesson I have learned in my thirty-eight years' service is that life long association with college students secures one the blessing of remaining optimistic and youthful in spirit."

This is a tribute of a kind which college students are not accustomed to receive from college presidents. Some good thing, it appears, may come out of Nazareth. In spite of student dissipation and addition to football. But the point is the excellence of the recipe Dr. Angell gives for keeping young. Kingsley's old Lord Saitter, it will be remembered, made it a point to "take the time from the rising young fellows, as every man ought who wished to go with the world."

Similar Dr. Angell recognizes the importance of keeping in touch with the new generation from which come the bold spirits who set the pace for the world—who invent wireless telegraphy or pilot flying-machines or inspire the reforms which make for progress. By association with the young some of the enthusiasm for life may be retained which in the old is the best antidote for decay. It is a better remedy than sour-milk microbes and the much easier to take.—N. Y. World.

## CONSERVATION OF LIFE

Is it not time that the discussion of politics and personalities in the controversy over the conservation of the natural resources of the country give way to a real conservation movement, such as the conserving of the lives of the toilers in the mines? A report from the geological survey, entitled "The Production of Coal in 1905," makes the grim announcement, in the most casual manner, that 2500 miners were killed in the coal mines last year, and 6772 injured. The chapter detailing the accidents is treated as but an incident in the production of coal, several thousand words telling the condition of the coal business in the various States. Yet, to the men who work in the underground pits there is a terrible meaning in the figures. There is further significance in the statement that the death rate in the mines of the United States for the year was 3.6 for every 1000 men employed. In Europe the death rate in the coal mines is 1 in 1000 employed, and not more than 2 under the most unfavorable circumstances.

Why is it that Americans are so much more careless of this most valuable of all resources? We value human life less than they do in European countries?

## FACTS ABOUT STUDENTS

While some prisoners in Helsingfors (Finland) jail were engaged in executing work on the prison roof, one of them, a professional electrician, noticed that telephone wires passed close by the windows of his cell. Obtaining, nobody knows how, a telephone apparatus, he managed to make a junction with the wires and obtained a local telephone directory. He commenced calling up on the telephone all his friends and acquaintances. When these whiffs at last tried him, he began to "call" the entire prison administration, up to the governor. The telephone worked for about a fortnight, but was finally accidentally discovered by a warden and removed.

One of the most interesting of English trials for witchcraft was that of the Suffolk witches in 1655. The two prisoners were accused of bewitching young children, a great point for the prosecution being that out of the blankets of an infant suckled by one of them a great deal had fallen and exploded in the fire like gunpowder. Immediately after the witch was found at home scorched and maimed. In spite of unsatisfactory evidence, the two were convicted. Whereupon the children's health at once began to improve.

Senator La Follette declares that "Ballinger must go."

President Taft declares that Ballinger is all right, although he may need to be fixed a little.

Ballinger, wearing a patched vindication, shows no disposition to go. With his chief's assurance that he may retain his position on the Federal payroll for an indefinite time, Mr. Ballinger need not be expected to go until he is pushed.—St. Paul Pioneer Press.

Great was thy joy, my hero, When thou didst see afar, Yet nearing, on speedy, fearless wing, Birds of the show, to trust hearts, The proof of land at last. Then didst thou raise thy voice and sing Across the deep from shore to shore Of God's mysterious ocean.

Great is our joy, my hero, That through dark, dreary years Of pain, thy faith failed never; For midst the darkness and the storm We seek a lane unknown, And toward the hidden port, Even as thou, we sail by faith.

## LIFE IN AN OASIS

The opening of a railroad from a point near Luxor into the Libyan desert has rendered easy the approach to the oasis of Khargeh, which is regarded as a typical example of these isolated centers of life. For three years past H. J. L. Beadnell has resided in this oasis, studying the phenomena of springs, moving sands, wells and so forth. The Libyan oases are deep depressions in a lofty plateau, which has a maximum elevation of nearly 2000 feet, but the bottoms of the oases are only from 100 to 300 feet above sea level. They are underlain by beds of sandstone, which are the sources of the water supply. Artesian wells 400 feet deep form practically inexhaustible means of irrigation, and such deep wells have been used from ancient times. The depressions were once the beds of lakes, and the water in the sandstone probably has its sources in the Abyssinian highlands.—Youth's Companion.

## THE FAITH OF COLUMBUS

(By Rev. W. D. Simonds, pastor of the First Unitarian Church of Oakland.)

Great was thy faith, my hero, When thou didst dare to tread The marshall's desecrated floor, And braving there a monarch's frown, Plead for thy right of way Across the deep from shore to shore Of God's mysterious ocean.

Great is our joy, my hero, That through dark, dreary years Of pain, thy faith failed never; For midst the darkness and the storm We seek a lane unknown, And toward the hidden port, Even as thou, we sail by faith.

# IN SOCIETY

A pretty ceremony last evening in the Unitarian Church, Berkeley, Miss Edith True Yates, became the bride of Nelson Nutting Scotchler, the Rev. John Howard Lathrop officiating.

The color scheme for the church decoration was of pink and green, ferns and delicate blossoms making an effective setting for the bride party, which was led by the ushers, Tom Stewart, Roy Miller and Colin Reed.

The bride, who was escorted to the altar by her brother, Albert E. Yates, wore a beautiful gown of white satin, adorned with rich lace. The conventional veil was confined to the hair by a wreath of orange blossoms, and a shower bouquet of lilies of the valley and bride roses added the finishing touches to the altogether beautiful costume.

Miss Ottoline Yates attended her sister as maid of honor, wearing an unusually pretty gown of pink silk mule and carrying a shower bouquet of Cecil Bruner roses.

Miss Beattie Yates, a niece of the bride, was the bridesmaid and wore a becoming gown of embroidered net over pink silk. She also carried a shower bouquet of Cecil Bruner roses.

An informal reception was held in the church parlors following the marriage service.

Mr. and Mrs. Scotchler have left for their honeymoon journey and upon their return will occupy a new home on Moulton street, which awaits their occupancy.

Mr. Scotchler is the son of Mr. and Mrs. J. H. Scotchler of Berkeley, an old and esteemed family of the college town.

**INTERESTING EVENT.**  
An interesting November date for the Adelpian Club will be the address to be given by Congressman Joseph Knowland. The subject of his address will be "History and Landmarks," and is being eagerly anticipated by the club members.

**ENTRE NOUS CLUB.**  
The Entre Nous Club held its first social gathering, entertaining friends and members at the home of the president, Miss Viola Kleckner, 255 B street, on Saturday evening, October 9. The evening passed merrily, with games and dancing, the music being furnished by the Midnight Orchestra. Red and yellow lanterns lent a festive attraction to the scene. After a pleasant evening the president led the way to the dining room, where a dainty repast was served. Among those invited were Miss Lillian Perry, Miss Irene Aitken, Miss Shirley Hartwell, Miss Leona Crapchiettes, Miss Lydia Anderson, Miss Annie Shea, Miss Kathryn Wheeler, Miss Rose Kane, Miss Katherine O'Malley, Miss Annie Viera, Miss Tessie Crumney, Miss Della McDonough, Miss Catherine Leonard, Miss Annie O'Malley, Monica McDonough, Miss Lucy Murphy, Miss Irene Crumney, Miss Viola Kleckner, Harry Hill, George Melin, Eddie Olsen, Ben Wulzner, Al Anderson, George Anderson, Willie Chelson, Harry Christensen, Fred Wulzner, Will Rogers, Herbert Fitzmaurice, Will Wulzner, Darrell Oerth, Fred Nutting, Arthur Silva, Joe Roach, Robert Vliet, Joe Ryan, Frank Fox, Frank Kleckner, Eddie Jasper, Mrs. Blood, Mr. and Mrs. Bright, Mr. and Mrs. Olsen.

**PORTOLA LUNCHEON.**  
The Oakland Club will give a Portola luncheon tomorrow in the banquet room of Pythian Castle. Mrs. E. L. Babin, president of the California Club of San Francisco, is to be a guest of honor upon this occasion and will speak upon the history of Portola. Miss Laura J. Frank, State secretary of the Native Daughters of the Golden West, will speak upon "Our Pioneers."

Mrs. P. S. Stoddard will be the presiding chair of the day and will be assisted by the following committee: Mrs. W. S. Rheem, Mrs. J. P. Rich, Mrs. J. K. Ritter, Mrs. Harry Roach, Mrs. John Randall, Miss T. Russell, Mrs. Nora Ryle, Mrs. Herman Saghom, Mrs. Anna Sager, Mrs. George Samuels, Mrs. J. S. Sanford, Mrs. A. A. Sawyer, Mrs. G. Schramm, Mrs. W. A. Schrock, Mrs. J. M. Scott, Mrs. G. A. Scott, Mrs. J. W. Scott, Mrs. R. Schabert, Mrs. E. Yeh Schmidt, Mrs. S. J. Sill, Mrs. T. Shankland, Mrs. E. S. Shanklin, Mrs. Frank Shay, Mrs. H. H. Shinn, Mrs. B. N. Sheer, Mrs. Sarah L. Shiley, Mrs. Fred Shennans, Mrs. D. A. Sinclair, Mrs. W. D. Smith, Mrs. L. M. Smith, Mrs. Mortimer Smith, Mrs. W. S. Snook and Miss Nettie Smith.

**ENTERTAINING RELATIVE.**  
Mrs. Harold Havens is entertaining her mother, Mrs. Mary Gray, for a visit of indefinite length. Mrs. Gray, who recently arrived from New York, where she makes her home. During her stay on the coast she will be the motif for many complimentary affairs.

**HOME WEDDING.**  
The wedding of Miss Lillian Penberthy and Dr. Albert Good will be solemnized this evening at 8 o'clock at the residence of the bride's parents, Mr. and Mrs. T. Penberthy. Only the relatives and a few intimate friends have been invited to witness the impressive ceremony.

Miss Penberthy will attend her sister as maid of honor. Dr. John McLean will be the officiating clergyman upon this occasion.

Dr. Good and his young bride-to-be have a large circle of friends in the Piedmont district. After an enjoyable honeymoon trip the young couple will occupy their pretty new home which has just been completed in the Piedmont hills.

**BRIDGE AND SUPPER.**  
Miss Grace Layman will be a hostess of the week, having invited a coterie of friends for Thursday, when bridge will furnish the interesting diversion of the afternoon. At the conclusion of the fascinating game a daintily appointed supper will be served.

Among those who have been asked to

MISS GENEVIEVE GOODACRE, who will be a hostess at Gamma Phi Beta Dance.

Share the pleasures of the afternoon are Miss Ruth Hill, Miss Margaretta Babin, Miss Christine Turner, Miss Dorothy Taylor, Miss Mildred Porter, Miss Hazel Layman.

**SORORITY DANCE.**  
One of the delightful affairs of the month will be the dancing party to be given by the Gamma Phi Beta Sorority members at the Claremont Country Club on Tuesday evening, October 26. Over one hundred invitations have been issued for the evening, which promises to be one of the most enjoyable events ever given by the society. The dance will be given under the patronage of a large number of the prominent society matrons of Berkeley, the list not having been completed as yet.

Among the list of patronesses who have accepted the invitation for October 26 are Mrs. L. P. Le Conte, Mrs. Noyes, Mrs. A. Andrews, Mrs. H. Baker, Mrs. William E. Colby, Mrs. Comfort, Mrs. and Miss B. Croftman.

The hostesses for the evening will include a number of the sorority girls, among whom are Miss Genevieve Goodacre, Miss Alice Hoyt, Miss Edgar French, Miss Justine Griffith, Miss Margaret Griffith, Miss Josephine Le Conte, Miss Elizabeth Rediges and Miss Sarah Morgan.

**ENJOYABLE TRIP.**  
Miss Pauline Walker of Fruitvale and Miss Daisy Walker of Oakland will Monday on the steamer St. Louis for Los Angeles. The trip will include San Diego, California Islands and Mexico. The young ladies expect to be gone for several weeks.

**NEW HOME PLANNED.**  
Mr. and Mrs. Ernest Tanner, who are at present occupying apartments in Berkeley, are planning a permanent home in the Claremont district. Mrs. Tanner was Miss Pearl King before her marriage of a year ago, daughter of Mr. and Mrs. Charles H. King of East Oakland.

**RECEIVING CONGRATULATIONS.**  
Mr. and Mrs. Ralph Jones are receiving the congratulations of their many friends

upon the advent of a small son in their household. Mrs. Jones before her marriage was Miss Caroline Oliver. For the most part she has been the house guest of her mother, Mrs. William Letts Oliver, at the family home on Vernon and Lee streets.

**RETURNED FROM TRIP.**  
Dr. and Mrs. Fred Lauffer, who have been enjoying a delightful trip in the north, returned to their East Oakland home on Sunday. During their visit they were the guests of Seattle friends. Mrs. Lauffer, who has an unusually sweet voice, will sing at the Oakland Club luncheon tomorrow and will be accompanied by Miss Butler.

**WHIST TOURNAMENT.**  
A whist tournament will be given tomorrow evening, October 13, at Masonic Temple, corner of Twelfth and Washington streets, under the auspices of Athens Chapter, Order of the Eastern Star. A number of valuable prizes will be awarded.

## Another American Heiress Weds With a Nobleman

MISS FERNANDA WANAMAKER.

Miss Fernanda Wanamaker, daughter of Redman Wanamaker, of Philadelphia, was married on October 4 to M. Arturo Heeren, son of Count Heeren of Paris. The religious ceremony was performed at the Paris residence of the bride's father, 127 Avenue des Champs Elysees.

by the Rev. Dr. Alfred G. Mortimer, of the St. Mark's Protestant Episcopal Church of Philadelphia. The bride and bridegroom will then leave for a motor tour and spend their honeymoon in Switzerland. They will make their home in Paris.

**The Only Licensed Lady Navigator**  
Mrs. Agnes J. Connell, the only woman in this country who has papers permitting her to navigate a steamer of any class in any ocean, will soon be seen in these waters, navigating the steamer J. L. Luckenbach from New Orleans. She is known over all the world, for a steamer is her only home, and she has sailed everywhere with her husband, Captain William J. Connell.

She was born in the Thousand Islands and grew up with the youth whom she later married. For a while she stayed at home while he made voyages, but she soon tired of that, and for the past twenty-two years she has sailed with him. At the very start she took such an interest in nautical problems and the work of managing the ship that the captain decided to instruct her, and under his able guidance she mastered all the secrets of navigation with little difficulty.

In the roughest sea, with her skirts gathered neatly in by bicycle clips around her ankles, she climbs up the rigging to any height with remarkable speed and catlike sureness of foot. In fact, as Captain Connell jokingly says: "There is nothing she cannot do, from running a ship to licking a sailor."

When at sea she presents a striking picture, attired in her navy blue skirt, uniform coat, and officer's cap, and a more forceful example of healthy and active womanhood is not to be found anywhere. As a result of her knowledge and experience in seamanship, Mrs. Connell received her sailing master's certificate from the port of San Francisco in 1901.

She is an accredited pilot for the great lakes and the St. Lawrence river, and also holds a government license entitling her to navigate any kind of craft in any waters. At any time she can relieve her husband, if necessary handling the big 5200 ton steamer with ease. — Boston Post.

when Miss Elsie Blodgett will be the especially honored guest. Cards will be the diversion for the afternoon. About twenty-five friends have been included in the guest list for the afternoon.

**RETURNED FROM HONEYMOON.**

## Sayings of Mrs. Solomon

This is the Song of Sorrows, which is Mrs. Solomon's, says Helen Rowland in the St. Louis Post-Dispatch:  
Behold, which one among yet hath not her sorrows?  
Lo, some of ye have HUSBANDS—and some of ye have NONE.  
Some of ye have AUTOMOBILE accidents—and some of ye have to WALK.  
Some of ye have DEBTS—and some of ye have not the credit wherewith to MAKE debts.  
Some of ye have EMBROIDERY—and some of ye have to ASSUME it.  
Some of ye have reputations to live UP to—and some of ye have reputations to live DOWN.  
And which of these is the greater SORROW?  
Then, come unto me, all ye that are bowed down, and I shall give ye consolation. Let the "white slave" and the bachelor maid bring their burdens to me for I have known ALL sorrow.  
Lo, heed not the scoffers that cry out from the housetops, saying, "Behold, she is a MAN-HATER!" For I say unto thee, I am NOT opposed to Man as an INSTITUTION. Nay, verily, MAN is a household NECESSITY, even as soap and a doorman!  
Then, ye that have husbands, be comforted! For what IS home without a husband? And ye that have NOT husbands, be of good cheer. Yea, rejoice that the WORST is yet to come. For whether thou weddest, or dost not wed, thou shalt be EQUALLED unhappily.  
Verily, verily, a husband IS the Woman's Burden. Yet a world without men would be as a dance without a partner, or a front porch without a rubber plant, or a divorce without ALLMONEY. Go to! Life without a LOVER is as a cigarette without a match. Selah!

## Court to Decide What 'Real Poetry' Is in Suit Against Stage Favorites

NEW YORK. — Justice Clark and a jury in the Supreme Court in Brooklyn today were trying to decide, among other questions, what is poetry and what constitutes a theatrical season. Julia Marlowe and E. H. Sothern were the defendants in a suit for \$5000, in which Miss Dorce St. Cyr furnished the poetry, supposed to be a translation from Dante's "La Figma di Juric." To prove its exquisite confusion, Miss Marlowe read from the witness stand the lines, which were:  
Still stood one apart, a third one:  
Oh, have pity on us, patron!  
Till said one apart, a fair one:  
Lo, my heart of wailing, wailing!  
Miss Marlowe said that the adaptation for which she and Mr. Sothern had contracted was just like that all through, and that, of course, they could not present it. She said that they had given a jury in the Supreme Court in Brooklyn today were trying to decide, among other questions, what is poetry and what constitutes a theatrical season. Julia Marlowe and E. ## City Council Reaches Compromise Regarding Waterfront Bond Issue

### MOTT PREVENTS A SERIOUS RUPTURE

Stays Storm Over Scheme Which Threatens to Segregate Improvement Items

ALL SECTIONS OF CITY MUST BENEFIT EQUALLY

Expenses Are Specified But Beyond This Funds Must Be Kept Intact

Major Mott delivered his waterfront improvements ultimatum to the City Council last night. He informed that body that the program as arranged must be fulfilled and that the bond election would have to be called before the annexation election to save it from defeat. He said he would not hear to any compromise on this score.

When the waterfront improvements matter came up everything went well until Commissioner Stiefvater asked City Attorney Stetson if it was possible to segregate the items of the bond issue in order that they might be voted upon separately. Receiving an affirmative reply Stiefvater declared it was necessary to definitely declare that at least \$500,000 should be spent on the western section of the waterfront.

STIEFVATER EXPANDS. Stiefvater then expanded his position by declaring that he would not tolerate a condition he claimed existed under a former bond issue, when certain sections of the city were favored upon its failure that sufficient money was not raised on the bond issue to purchase all the lands intended.

Commissioner Mott declared vehemently that segregation of items would mean anything other than of the city against the other such a condition would endanger the success of the entire bond issue.

After Stiefvater had declared to Mayor Mott stepped into the arena and said that any talk of segregation was idle. He did not like to have the members of the Board of Public Works impugned, as was the case with reference to the park lands, declaring that the board was composed of honest officials. The Mayor said the board intended to conduct the water front improvements in the best interests of the city, and insisted that if the success of the scheme was to be thought of in the coming election the program as already made would have to be carried out at once.

WILL BE NO SEGREGATION. Following the Mayor's suggestion, there will be no segregation, but as a compromise, the council adopted a resolution setting forth that \$500,000 of the bond issue for water front improvements of the \$2,530,000 should be spent on the western waterfront.

Examiners and have for \$1.50 up at Clifton's, 264 Washington street.

### Preliminary Resolutions Call for a Bond Issue of \$2,530,000 for Improvements

Resolutions preliminary to calling the bond issue for a new city hall and water front improvements were passed by the City Council last night. The sum of \$2,530,000 was set aside for water front improvements. Of this amount \$530,000 is to be devoted to the western water front. The water front of East Oakland will receive in round numbers \$175,000. The remainder of the money asked for will be devoted to the development of the estuary.

City Electrician Babcock made a report to the City Council to the effect that \$80,000 would be required for a fire alarm and electrical building to be erected in place of the present one which occupies the site on which the new city hall is to be erected.

On Monday next the council will pass the ordinance calling for the bond issue. The date will be fixed for November 15.

western waterfront, \$175,000 on the East Oakland front and the remainder on the southern front.

The construction of an unattached building to house the fire alarm and police telegraph system is another item to be incorporated in the bond issue, the estimate of cost being submitted by City Electrician Babcock as follows: Building, \$35,000; electrical equipment, light and power, \$20,000; metal office fixtures, \$20,000; shop equipment, \$20,000; fire alarm by the Board of Supervisors.

### GRAND MASTERS TO VISIT MASONS

100 Members of Organization to Be Guests of Alameda Lodge Thursday

ALAMEDA, Oct. 12.—Oak Grove Lodge, No. 215, F. and A. M., will entertain the grand masters and officers of the lodge Thursday at Masonic Hall. All the lodges in this jurisdiction, numbering about 100, are coming from San Diego, to be in attendance.

The guests will be given an automobile ride through the city upon their arrival at the north side Park street station at 10:30 a. m. The automobile route will be south on Park street to Clinton avenue, west on Clinton to Sherman, north on Sherman to Santa Clara avenue, west on Santa Clara avenue to Webster street, north on Webster street to Pacific avenue, east on Pacific to Grand street, south on Grand street to Central avenue, east on Central avenue to Alameda street, north on Alameda street to Park street. Here a banquet will be held and the third degree conferred. A stenographic report will be a feature of the program and will follow the banquet.

Oak Grove Lodge is planning to entertain its guests joyfully, and the function is being anticipated by the grand officers. The grand lodge is now convening in San Francisco, but will close its session Friday.

### SHOOTING BOX MOVED BY BORAX KING SMITH

ALAMEDA, Oct. 12.—Frank M. Smith, boxer king and sportsman, has moved his \$800 shooting box from its former location in the Coyote hills to Alameda.

The shooting box was taken down several weeks ago and removed to the Alameda hills in position for the opening of the season on October 1.

equipment, \$20,000; underground cable, \$1,600. Total, \$50,000.

PLEDGE TO NEW TERRITORY. The Council adopted another resolution providing that in the event of the annexation of portions of Oakland and Brooklyn townships, for which an election will be held November 15, the City of Oakland would agree to give the same care and attention to the streets of the annexed district as is now being given by the Board of Supervisors.

### NO MORE MISERY IN THE STOMACH

Dyspepsia, Gas and Heartburn Vanish and Your Stomach Will Feel Fine in 5 Minutes.

If what you fast ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch Gas and Grumble, indigestion, heartburn, fullness, nausea, flatulence, sour, out-of-order stomach, or indigestion in five minutes.

A full case of Paine's Dyspepsia costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave you satisfied about the house in case some one else is suffering from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why Dyspepsia trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Dyspepsia is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat, leaving it makes you so the table with a healthy appetite; but what will please you most is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort toatives, liver pills for biliousness or constipation.

This city will have many dyspepsia cranks, as some people will call them, but you will be cracker about this splendid stomach preparation, too, if you ever try a little for indigestion or gas, or any other stomach misery.

Get some now, this minute, and forever rid yourself of Stomach Trouble and Indigestion.

HAD HIS TOMB READY WHEN HIS DEATH CAME

HANFORD, Oct. 12.—In a coffin which he had from a steward the body of W. W. Jones, who for forty-five years has led the life of a recluse on an isolated ranch near here, will be buried in a tomb built of red brick he quarried himself in the hills twenty miles away and hauled to Orangevale cemetery to be his sepulchre.

Jones died of heart disease Saturday on his lonely ranch. He was called "Black Horse" Jones because of his hobby for raising great black horses, fifty head of which were on the ranch when he died.

The sudden ending of his life's romance, it is said, led him to his hermit existence. According to those who heard the story from him, Jones was a full and frank man while handling him a drink of water from a well only a few days before the day they were to have been married. His grief led him to California in an effort to get as far away as possible from the Iowa farm where his sweetest died. For years he has kept his coffin in his bedroom and when his tomb was finished he carved an epitaph upon it with his own hand, leaving blank only the death date. His estate, which includes property near the Coalonga oil fields, is estimated at \$40,000.

VETERAN OF CIVIL WAR IS DEAD IN ALAMEDA

ALAMEDA, Oct. 12.—Philip Kehres died yesterday at the residence of his daughter, Mrs. F. A. Treat, 2719 Arbor street. Kehres was a native of Germany and 71 years of age. He was the father of William, Henry, Philip, Jr., and John Kehres and Mrs. F. Treat.

The funeral of the decedent will be held tomorrow from his daughter's residence. Funeral services will be under the auspices of Appomattox Post, No. 50, G. A. R., of which the deceased was a member. The interment will be in St. Mary's cemetery.

DIVINE OBJECTS TO CONTINUING STREET WORK ON SUNDAYS

Rev. F. L. Goodspeed, of the First Presbyterian Church, in a communication to the City Council last night, protested against the continuance of work on the streets on Sundays in the vicinity of the church of which he is pastor. The communication was referred to the Board of Public Works.

Word of an urgent character has been going on in Franklin street. This led to the protest being made.

### Rice Showered on Stage in Honor of Catlett and Bride

MRS. WALTER CATLETT, dainty chorus girl, whose wedding to popular comedian was announced amid a shower of rice at the Broadway Theater last night.

A pretty secret romance of the times world behind the scenes, which had its termination at the Little Episcopal Church in San Rafael yesterday afternoon, was announced over the footlights of the Broadway Theater last night amid a shower of rice and a fusillade of flowers.

The congratulatory couple, who returned last evening, secure in the belief that no one knew of their little affair, were the center of the footlights of the Broadway Theater last night amid a shower of rice and a fusillade of flowers.

The courtnship of the young people, though it has extended over a period of several months, has not been generally known to even the members of the company, declare intimate friends, and the announcement of the marriage comes as a decided surprise.

Catlett is an Oakland boy, who, during the past ten years, has achieved considerable success in his field of chosen endeavor. He attended the local High School here, and made his professional debut in this city (after playing in the East for a time) at the Idora Park Opera House during the Hartman opera season of three years ago.

Miss Vernie has only recently gone on the stage. She is a San Francisco girl, having lived all her life in this State, and her engagement with the Ferris Hartman company, which began when the well-known musical star was playing at the Princess Theater in her home city last winter, is her first venture behind the footlights.

The lovers, after procuring a license at the county clerk's office in this city on Saturday afternoon, ran away to San Rafael, without taking anybody into their secret, yesterday morning. The news leaked out, however, and the quasi-reception in the theater last night was hastily planned by the many friends of the young people and successfully carried through.

Both will continue their stage work, Catlett being under contract with the Hartman company, and Mrs. Catlett, being of the opinion that a conjugal life largely devoted to grease paint and airy costumes promises much, for a few years at least.

### OAKLAND TAKES MORNING GAME

Sacramento Defeated by the Score of 5 to 2 in First of Double Header

Oakland took the morning game from Sacramento by a score of 5 to 2. Baum lasted one and one-third innings. In the first frame singles by Christian and Duffey Lewis and Hogan's two-bagger netted Oakland one run, while in the second Lewis drove in two more tallies after Baum had filled the bases on two walks and a fumble of Christian's sacrifice. Brown replaced Baum and held the locals safe until the fifth, when a walk, Duffey Lewis' third hit, an out and Maggart's sacrifice fly scored Christian. Thomas' triple and Shinn's error registered Oakland's fifth run.

GANDIL FINED. Boles was invisible until the seventh, when Graham's drive, a walk, an out and Cuthaw's juggle, followed by Duffey Lewis' fumble in two runs. Gandil and McKine were ordered out of the game for kicking, the former being fined \$10. Manager Maggart announced that he had turned utility infielder. Chas. back to the Shreveport club in Texas.

### WANT TRIAL TO BE IN HOME CITY

Indianapolis News Owners Object to Being Taken to District of Columbia

INDIANAPOLIS, Oct. 12.—That section 1014 of the United States statutes was never intended to authorize "the removal of defendants from one district to another for trial, unless they were fugitives," was maintained today by John D. Lindsey, of New York, counsel for the New York World in the Panama "libel case" before Judge A. B. Aderson in the United States Court.

Mr. Lindsey was assisting Ferdinand Winter, counsel for Dele Van Smith and Chas. R. Williams, proprietors of the Indianapolis News, whom the government is seeking to remove to the District of Columbia for trial under a grand jury indictment charging them with having committed criminal libel in publishing charges that there was a "graft" of \$25,000,000 in the purchase of the Panama Canal by the United States from the old French company.

The trial of the publishers of the New York World on a similar charge, but in the "defendants' district," New York, is to be called there.

Mr. Lindsey and Delancy Nicoll had prepared a memorandum, which Mr. Lindsey offered to the court today, opposing the removal of Messrs. Smith and Williams. He said his clients were not interested in the precedent possibly to be set in this case.

### ROBBED STATE BANK SO AS TO WED GIRL

LAWRENCE, Kan., Oct. 12.—It was to obtain money with which to marry a young Lawrence girl that Earl Bullock, 18 years of age, robber the State Bank of Eudora, near here, yesterday, according to the local police.

No trace has been found of the youthful robber, although a posse made up of officers and farmers have hunted him since last night.

Wilson Dingle, the Lawrence officer who was shot by Bullock last night, is in a critical condition.

### HOFF IS CHOSEN ACTING PRESIDENT OF COUNCIL

BERKELEY, Oct. 12.—The city council met for a few minutes this morning and elected Christian Hoff acting president of the body in the absence of Mayor Beverly Hodges, who is in Seattle on business for ten days. The council then adjourned to meet tomorrow morning.
